

**Side 1: Draw here a flowchart reflecting the metagenomics workflow you plan to do today**

The flowchart does not have to be correct, it only has to reflect your planning and understanding before starting the practical. Name: .....

I approve that these flowcharts may be used as an anonymous data point for scientific publication by Laura W Dijkhuizen MSc. Signature:.....

**Side 2: Draw here a flowchart while you progress in the practical.**

‘Grow’ this flowchart during the practical, add steps while you do them and make it as complete as possible
